tello!

I'm Microsoft's Virtual Agent. I'd love to help you. You can also ask to talk to a person at any time. Please briefly describe your issue below.

I wanto findout my laptop licnce nomber

Here's what I think you are asking about: How to find your Windows product key. Is that correct?

Yes No

yay

Sorry, I can't understand your response. Could you select one of the choices? Which one did you mean?

How to find your Windows product key

None of the above

1

How to find your Windows product key

A Windows product key is a 25-character code used to activate Windows. Where to find your product key depends on how you got your copy of Windows:

- From an authorized retailer. The product key is on a label or card inside the box that Windows came in. If you bought a
 digital copy, it will be in the confirmation email you received or in a digital locker accessible through the retailer's
 website.
- A new PC running Windows. The product key is preinstalled on your PC, included with the packaging the PC came in, or
 included on the Certificate of Authenticity (COA) attached to the PC.
- A digital copy from a Microsoft website. The product key is in the confirmation email you received after buying it. Or,
 it may be distributed as a digital license if you bought Windows 10, in which case it doesn't include a product key.
- Free upgrade to Windows 10. If you upgraded to Windows 10 for free from Windows 7 or Windows 8.1, you should
 have a digital license instead of a product key.
